FMX Case Study: Product Launch

Introducing the Triumph Government Furniture Store

Tel: 01685 352211

Email: sales@triumphstorage.com

Web: www.truimphgovernmentfurniturestore.com

triumph government furniture store

With the formal launch of the one sure source at Procurement Solutions, Triumph together with their partners Boss Design and Elite Office Furniture were delighted with the level of interest the new venture created at the show. With over 100 firm project enquiries and after recent contract awards the consortium goes from strength to strength. The one sure source provides single point ordering at its very best. Fulfilling all office furniture requirements the store offers desking, task and soft seating and office storage and much more. Now with its own dedicated electronic catalogue it offers the customer consistent value for money, high quality, tried and tested products

and a truly dependable service. Also premiered at Procurement Solutions was the store's environmental data sheets which with the assistance of FIRA, Best Foot Forward, the leading environmental consultants, and the "Furniture Footprinter" give the customer credible and substantiated carbon footprint detail, levels of Recycled content and Re-cyclable content in a easy to read document. On top of this is was also recently announced that all three companies now have FSC accreditation in their own rights and with each company being carbon neutral businesses means they also lead the way with their environmental credentials. With the resources to provide project management, 2D and 3D design together with walkthrough animation the consortium can offer the complete complimentary service to back its wide ranging product portfolio.
