Triumph success at ExCel

The imaginative Triumph Stand at this year's Public Procurement Show at the ExCel Centre in London's Docklands, stood out, worked strongly and got a lot of attention from show visitors. Triumph used an arresting set of graphics on the stand to promote the Triumph offer of total capabilities on any major project.

Visitors were able to follow the graphics across the floor and up and down the walls of the stand - highlighting every stage of a project : from original briefing, space planning and 3D visual realisation, to detailed project management, manufacturing, installation, logistics and delivery.

On display were also a series of items from Triumph's new Lm top quality range of storage, desking and seating, in a special display which highlighted the imaginative integration of alternative storage and seating options working within the same deskside space.

The logo for Triumph corporate furniture and storage. It features the word "triumph" in a bold, white, lowercase sans-serif font, centered within a dark blue rectangular background. Below the main text, the words "corporate furniture and storage" are written in a smaller, white, lowercase sans-serif font.
