

# Congratulations from Triumph to the OFAS Newsletter for being 10.

## From one who is celebrating 60!

For ten years, the OFAS Newsletter has been faithfully keeping us up-to-date with the industry.

And Triumph has been in the business for a generation.

It made its first steel storage unit 60 years ago, but today Triumph is still in the front line. Building a comprehensive range of down-to-earth, well engineered, and sensibly priced steel storage solutions for the new generation.

The workspace has changed. And

the workforce has moved to multi-tasking - so Triumph has to be right up there with its multi-purpose storage systems, designed for complete flexibility in today's office environments.

From the new Triumph **L<sup>m</sup>** Lateral Filing system which maximises storage capacity for any given length of linear meters - to a brand new range of state-of-the art Personal Office Mobiles for modern bench working - which can even work remotely on solar power!

## It still pays to look again at Triumph

Triumph's famous delivery system means you get whatever you specify on time. Simply call Paula or Paul on 01685 352252

### 60 years of logo development!

What Triumph looked like in 1946

The modern look in 1957!

The look which lasted until 1990

Triumph in action today

Triumph's new **L<sup>m</sup>** Lateral Filing System combines industry standard doors, drawers and flippers with a full series of complementary tambour door options. Triumph's truly contemporary filing system

# Triumph

Pedestal Ranges - over 40 standard units with 200 options. 3 Alternative Ranges of cupboards and tambours: each with over 60 different units offered as standard. Triumph delivers over 50 truck loads of steel storage a week and uses over 200 tonnes of steel
