Case Study
Hampshire County Council
Ashburton Court
Winchester

efficient storage : effective spaces

Ashburton Court East Refurbishment of Hampshire County Council flagship offices in Winchester

Ashburton Court in Winchester is Hampshire County Council's new flagship office building designed to demonstrate the Council's future vision for innovation in the workspace

The Brief To create a major refurbishment to produce a more diverse, efficient office environment that can support new ways of working

The Building Ashburton Court East is a major office refurbishment over four floors of a building for Hampshire County Council. The building was gutted and reclad to provide a striking modern exterior. The interiors were then designed around a simple base palette which is both elegant and enduring: to create a timeless quality that stays with the building

The Interior Design Hampshire County Council's own internal design team was responsible for the origination and execution of the design concept. Ashburton Court East is the largest flexible working environment ever undertaken by Hampshire's in house design team. They worked with user staff to

integrate comments and feedback into the final implementation

The Storage Following a full filing audit by Triumph to calculate the linear meterage needed and the requisite filing medium to be used, Triumph provided a range of eight different kinds of storage units to meet the defined needs of each department

Working alongside Steelcase who supplied the desking and seating, Triumph installed a series of its Metrix combination units, side filers and tambours - all in chalk white

All units were delivered on programme, and on budget
