Case Study Morgan Ashurst Construction Salford Quays Manchester

triumph

efficient storage : effective spaces

Morgan Ashurst Anchorage 2 Building Salford Quays, Manchester

A key note building in a major Manchester waterside development at Salford Quays

The Client Morgan Ashurst, part of the Morgan Sindall Group plc - the top UK construction and regeneration group

The Brief To provide a thoroughly modern, new environment to relocate and re-house two major companies, following the merger of Amec DPS with Blue Stone plc

The Building New workplace facilities over three floors in the new Anchorage 2 building at Salford Quays, a keynote waterside development in Manchester's burgeoning Salford Quays dockside area

The Interior Design As the turn key supplier, Manchester's Dragonfly Space Solutions worked with Triumph to install 200 storage units and pedestals from Triumph's L^m range, to go with a full suite of Haworth desking

The Storage The use of Triumph's highly flexible L^m Lateral Filing System allowed for complete colour coding of the furniture to denote the floors and to

identify the individual departments. Triumph also utilised the unique L^m High Density storage capacity to reduce the floor space needed for filing. L^m Combination units then combined efficient drawer storage, with effective double door cupboard space above

In addition, Triumph also provided its unique L^m Dual Access unit for reversible working at desk ends. This imaginative application allows for deskside working access from one side, with a series of drawers or doors on the reverse

Project Scope

Client	Morgan Ashurst
Location	Salford Quays, Manchester
Interior Designer	Priti Gadani at Morgan Ashurst
Furniture Supplier	Dragonfly Space Solutions
Storage	Triumph
Product Range	L^m Lateral Filing System
